

Bio for Eric B. Wolff, U.S. & Foreign Commercial Service

Mr. Wolff joined the Foreign Commercial Service in 2003, and is currently serving as Principal Commercial Officer with the American Consulate General in Chengdu, China. In this capacity, Mr. Wolff is responsible for U.S. commercial affairs throughout southwestern China, covering the provinces of Sichuan, Yunnan, Guizhou and Tibet, and Chongqing municipality.

Prior to his current posting, Mr. Wolff served as Commercial Officer with the American Embassy in Beijing, China. In this role, Mr. Wolff coordinated trade promotion across all of CS China, and covered the Consumer Goods, Retail, Franchising, Distribution Services and Direct Sales sectors from Beijing.

Prior to joining FCS, Mr. Wolff had over 20 years of private sector experience in engineering management, project leadership and management consulting. Most recently, Mr. Wolff was Principal Consultant for Supply Chain Operations with PricewaterhouseCoopers (PwC), based in Charlotte, NC. In this role, he worked closely with numerous Fortune 500 firms on improving supply chain processes and strategic procurement. Before joining PwC, Mr. Wolff served as Project Manager for several large multi-million dollar chemical and waste treatment facilities at Stone & Webster Engineering Corporation, based in Englewood, CO.

Mr. Wolff's educational background includes an MBA from the University of Southern California, an MS in Chemical Engineering from Lehigh University, and a BS in Chemical Engineering from the University of Pennsylvania. He speaks conversational Chinese.
